### **Digital Painting with Procreate on Zoom**

Did you know that digital painting opens a world of possibilities for creativity? You can paint with your finger or a stylus or import photos of your conventional artwork or photography to create layered digital art. You can also use Procreate to improve your analog art. All you need is an iPad and a professional app called Procreate. This workshop provides an introduction to basic skills needed to create digital art in Procreate. These classes will be held on the Zoom platform and you must be able to interact with the class on a laptop or desktop while using your iPad during the class.

#### **Course Objectives:**

1. Discuss the possibilities of using Procreate as a method to create digital art.
2. Show examples of art created in Procreate.
3. Introduce: Procreate workspace and gallery
4. Demonstrate: Brushes, Color wheel, Smudge tool, Eraser tool, Layers
5. Demonstrate: Brush size, undo and redo, circle of color
6. Demonstrate: Choosing a canvas size
7. Participants will create first piece of digital art without layers using a stylus or finger and save to the Procreate gallery
8. Demonstrate: Share, Duplicate, and Delete in the Procreate Gallery
9. Participants will create another piece of digital art using at least two layers.
10. Demonstrate how to import a photo from their iPad Photo Gallery
11. Participants will create another piece of digital art that imports a photo from their iPad gallery.
12. Critique student work in a Shared Album.

#### **Materials student will need to provide:**
