Fun with Collage

Collage is an art technique where paper shapes are arranged and glued onto a surface. We will use all kinds of paper and arrange them while discussing overlapping, design, color and composition. So, start to gather interesting papers, pictures, journal pages, letters, old art attempts on paper, used colored papers, labels, candy wrappers, pressed leaves and flowers and more and we will create new works that stand on their own.

SUPPLIES:

- PAPER - Begin your collection now!
 - Gather interesting papers, pictures, old journal pages, old art attempts on paper, used paper (I like the pieces where I've worked out calculations) painted paper, colored papers, labels, candy wrappers, pressed leaves and flowers, and more.
- PAPER SCISSORS
- EXACTO KNIFE
- SOMETHING TO SPRAY WATER
- SOFT GEL GLOSS MEDIUM IN A JAR. I like Golden's
- A FOUNDATION! I like illustration board 15 X 20" or so but any smooth, fairly firm surface will work.
- Old credit card
